**PRELIMINARY AMENDMENT ACCOMPANYING**  
**A REQUEST FOR CONTINUED EXAMINATION**

Sir:

Prior to the continued examination of the above-identified application, please amend the application as follows:

**IN THE CLAIMS:**

Please add new claims 25 and 26 as follows:

--25. (New) A purge solenoid valve assembly having a valve driven by a solenoid, the assembly comprising:

a bobbin;

a wire wound around the bobbin;

at least one terminal electrically connected to the wire; and

a pin having a first portion at least partially surrounded by the bobbin and adjacent a second portion, the first portion having a cross-sectional area greater than a cross-sectional area of the second portion, the pin being displaceable with respect to the bobbin when an electric current flows through the wire;

an overmolded cap generally encapsulating the bobbin and the wire, the overmolded cap including a connector body formation partially encapsulating the at least one terminal;
